On parashat Yitro a fellow who was about to go into a building pointed to the words Vayichad Yitro, Yitro became sharp, and the guy said Yitro got goosebumps when he heard about what the miracles that God had done for the Jewish people. He wasn't just happy, he got goosebumps Vayichad and that was the strength of his reaction in hearing of of the actions of God.

And another fellow in Haradi clothes who was filling the radiator of his car with water pointed to a different verse, atah yadati now I knew. And the fellow said Yitro had been through all the avoda zara idol worship and all that, and because he'd been and through the avoda zara, he now could see the glory of what God was doing. This explanation comes from the Zohar, the fellow said.
