

## Parashat B'Shalach

February 2023

### Parashah-Based Eulogy

This week's parashah provides graphic descriptions of the sea as Bnei Yisrael walked through it and of song that was sung afterward.

We have to look and listen much harder to see the sand and hear the silence that are also part of the story - the sand where the dead horses and drivers lay and the silence of their deaths.

A good musician, a good person, a good friend will no longer make song as the sea near Tel Aviv claimed him this week and the waves threw his cold body onto the sand on the shore.

May his music and his life be a joy and a blessing to all.
